

## Approval and Implementation

The transfer of management authority for actions during an incident and/or disaster is done through the execution of a written delegation of authority from an agency to the incident commander. This procedure facilitates the transition between incident management levels. The delegation of authority is a part of the briefing package provided to an incoming incident management team. It should contain both the delegation of authority and specific limitations to that authority.

The Garfield County Continuity of Operations Plan and Disaster Recovery Framework delegates the Garfield County Board of Commissioners authority to specific individuals in the event that the Board is unavailable. The chain of succession in a major emergency or disaster is as follows:

- County Manager
- County Attorney
- Director of Building and Planning
- Road and Bridge Supervisor
- Director of Public Works and Facilities

8/6/12

Date

(Name) John Martin  
Chair, Garfield County Board of Commissioner
