## ALL APPLICATIONS ARE REQUIRED TO BE SUBMITTED IN PERSON

### PERMITTING PROCEDURE FOR OWTS REUSE SYSTEMS.

The OWTS Reuse Permit must be approved before installation of a system may begin.

Permit applications can be obtained and submitted to the Garfield County Public Health Department at 195 West 14<sup>th</sup> Street, Rifle, Colorado or at the website, [www.garfield-county.com](http://www.garfield-county.com). Call (970) 665-6383 with any questions.

#### I PERMIT APPLICATION & SUBMITTAL REQUIREMENTS:

- Complete attached Garfield County Septic Permit Application
- Proposed Engineered Wastewater Reuse System Design (stamped and signed by design engineer)
- Septic Permit for a New installation .....\$523.00

**Make Check payable to: Garfield County Treasurer**

**FEES ARE NOT REFUNDABLE.**

**\*\*\*\* Relocating a system to a location other than on the approved permit requires a new application, system design, and permit fee. \*\*\*\***

#### II PERMIT APPROVAL PACKET:

- Cover Letter
- Application Page
- ISDS Reuse Permit and Receipt
- Permit Conditions
- Report Form (please submit to email address on printed version)

#### III FINAL INSPECTION:

- The design engineer is responsible for inspecting the installation of the approved system and must certify, in writing, to the Garfield County ISDS Program within 5 working days after installation of the unit that the installation complies with the approved plans.
- The design engineer's installation certification shall include as-built information including any optional appurtenances installed by the permittee.

#### IV SYSTEM OPERATION:

- Follow permit conditions and engineer specifications.
- Submit monthly report form and lab records
- See permit conditions for relocation of system or change of effluent use.
