

# Project Announcement: I-70 Glenwood Canyon Rock Fence Improvements

## Project Overview

The Colorado Department of Transportation (CDOT) will begin rock fence improvements on Interstate (I) 70 in Garfield County, east of Glenwood Springs, from mile point (MP) 122 to 125.

Rock Solid Solutions is the contractor for this \$1.5 million project. Construction will include the removal of six existing flex post fences and replacing them with higher capacity rockfall fences. Construction of the new rockfall barriers will take place prior to removing the old damaged rockfall barriers. The improved and higher capacity rockfall fences will help to further mitigate the potential for rockfalls in the canyon.

## Project Schedule and Travel Impacts

Rockfall mitigation on I-70 will start March 26, 2018, at MP 122 and continue to MP 125. The project will be in operation Monday - Thursday, 7:00 am to 7:00 pm. Motorists can expect a westbound right lane closure, east and westbound short term traffic stops, and a reduced speed limit of 35 mph. Anticipated completion date is August 2018.

## Project Information

If you have any questions or concerns, or if you would like to be added to our Public Outreach contact list and receive construction updates, please contact us at the phone number or email address below:
