

# How healthy is your family room?

40% of homes in Garfield County have tested above the EPA radon action limit.

Radon is a cancer-causing, radioactive gas that enters homes through the ground. The only way to know if your home has radon is to test. Garfield County Public Health provides free test kits. Pick up your kit at these offices or call 970-625-5200.

Public Health  
2014 Blake Avenue  
Glenwood Springs

Public Health  
195 West 14th Street  
Rifle

Carbondale CLEER office  
PAC3, 520 S. Third Street, Carbondale

*Free mail-in coupons for test kits are also available at Parachute and New Castle town halls.*
