The Battlement Mesa Draft Health Impact Assessment
c/o Roxana Witter
Colorado School of Public Health
13001 East 17th Place B119
Aurora, CO 80045

RE: Delivered Electronically

Dear Colorado School of Public Health:

The West Slope Colorado Oil & Gas Association (“WSCOGA”) submitted formal comments related to an initial draft of the *Battlement Mesa Health Impact Assessment* (“DHIA”). Related to the second draft, WSCOGA endorses comments submitted by Antero Resources (a WSCOGA member and a key process stakeholder) and Environ, a premier international consultancy firm specializing in human health issues.

Please accept this letter as a formal request that Garfield County and the Colorado School of Public health carefully review the Antero/Environ comments and take their substance into consideration if policy recommendations are considered based on DHIA outcomes.

WSCOGA’s status as a process stakeholder has been much appreciated, and the organization looks forward to working with Garfield County and other stakeholders moving forward.

Best Wishes,

David Ludlam
Executive Director
West Slope Colorado Oil & Gas Association
